

# Early Years Digital Support Programme

## A Programme of ICT Training Support For Settings in The Southern Health and Social Care Trust Area

The Covid 19 pandemic has required many of our settings to carry out their work differently and this has included the use of digital technologies to support families and stay in contact with colleagues. We know from feedback that some settings are less confident than others in using digital technologies and believe that this support programme can help settings with their skills with the aim of improving the settings use of ICT. The programme of support includes:

- Online training workshops in the use of digital technologies such as Microsoft Teams and Zoom
- 121 sessions directly with your setting in the use of digital technologies
- Clinics with settings who are having difficulty adapting to the use of digital technologies
- Written guides to support the learning
- Offline advice on the use of technology in settings

To take part in the programme please register your interest by contacting Marianna Hetherington [mariannah@early-years.org](mailto:mariannah@early-years.org) Tel:07841102903 . Once you are registered you will be sent information on the scheduled training workshops. You will also be sent a short survey which will help us understand your ICT needs.

### Workshops Scheduled Include:

Session	Date and Time
Use of Microsoft Teams	Tuesday 8/12/2020 2– 3.30pm
Use of Zoom	Wednesday 9/12/2020 2- 3.30pm
